For immediate release

Gutenstetten Germany, September 2011

THE NEW FOOT JINGLE TAMBOURINE BY MEINL PERCUSSION

Meinl Percussion introduces a Foot Jingle Tambourine which is easily mounted on the foot through an elastic gum band. It's light and versatile, yet not overpowering, and delivers a sensitive musical accompaniment using aluminum jingles. Whether you're a percussionist, cajon player, guitar player, or any other instrumentalist; simply tap your foot along with the beat and provide the rhythmical foundation for your own playing.
